RE: Interreg Europe Call for additional activities (5<sup>th</sup> call) – decision

Project: **PGI00129 COMPETE IN**

Dear Saverio Serri,

We are pleased to inform you that the application for additional activities for project **PGI00129 COMPETE IN** was **approved** by the monitoring committee on 23/06/2021.

The official start date for the additional activities is 01 October 2021 but the implementation of these activities in line with the 5<sup>th</sup> call application form approved by the MC can start as soon as possible. The subsidy contract signed for the original project is still valid and is therefore applicable also to these additional activities.

We will contact you soon with instructions on the request for change that is needed to modify the original application form in iOLF accordingly.

We appreciate the efforts made by you and your partners in developing this proposal.

On behalf of the Chair of the Interreg Europe monitoring committee,

Yours sincerely,

**Erwin Siweris**  
Programme Director
